

Epilogue: Atomic warning

Below and on the next page are respectively the astrology charts for the exact date and time of the dropping of the atomic bombs on Hiroshima, Japan and Nagasaki, Japan. Notice the planetary alignment of Mars just entering within 30 degrees of the lunar node. This, along with data presented in Chapter 24, Chapter 30, and Chapter 52 should justify a greater sense of urgency regarding how the planet Mars influences human decision making and how it escalates conflict when it enters within 30 degrees of the lunar node. Circumvention of this Mars effect can be established with ceasefire agreements being established for that time-frame. India and Pakistan should also take heed.

Once again, we see another example—on a much greater scale—of fire from heaven when this planetary alignment occurs. This is very important in terms of prophecy, especially in regards to Gog and Magog. It is prophesied in the book of Revelation that after the 1000 years are up, Satan will go out to deceive the nations and gather them for battle against the small remnant monotheistic groups. After 1000 years, Satan wont be bound to the Mars 360 system. As a result, the world will revert back to its war mongering ways and go forth invading and conquering territory and persecuting religious piety. Its prophesied that this will be circumvented by fire from heaven. With fire from heaven being designated as a reference to incoming rocket fire(in this writing) and with Gog and Magog referring to a large portion of the population, one can gather that the anticipated global nuclear holocaust could take place at the time of Gog and Magog. Both the offensive and defensive aspects of this event at that time will revolve around the operations of a man named Dhul-Qarnayn, a monotheist-friendly engineer and expert in nuclear defense.

Epilogue: Atomic warning

Following the large scale nuclear conflict will be three days of darkness as a result of the firestorm that causes the atmosphere to fill up with dark clouds and billions of pounds of soot. This would block the sunlight, causing rain to dry up, crops to die, and temperatures to drop severely to below freezing levels. Anyone outside would freeze to death. The remaining survivors of Sub-Saharan Africa will then form a federation of bandits and proceed to salvage any remaining valuables left in North Africa and Arabia. This expedition led by Ethiopia will allow for Dhul-Suwayqatayn to enter Saudi Arabia and destroy the Kaaba, robbing it of its adornments by striking it with his shovel and pick-axe.

I conclude the writing here after completing a real time demonstration of the oracles explained in this book. This demonstration of calling (predicting) fire down from heaven was performed starting in 2019 and lasting throughout the tumultuous year 2020 in which a global pandemic(COVID 19) affected countries all over the world. The virus started to spread outside of China around mid January when Mars entered within 30 degrees of the lunar node. This demonstration of calling(predicting) fire down from heaven(fire in the form of rockets fired from Gaza) was done in order to bring attention to the planet Mars, so that the people of Israel and earth can build a observatory system to tame its influence on humans. Not all humans believed with assurance in our signs at the time of the demonstration. This writing is not to deter any revolutionary spirit but to humbly request scholastic inquiry. I encourage nations to incorporate the Mars 360 phenomenon into the Identification system so that humans are alert as to how they can interact appropriately within a community. This is imperative for both the economic, social, and physical health of a community.

Just as the moon is considered a vehicle (in the Judaism tradition) for getting prayers through to God, Mars likewise should be considered the vehicle that allows a channel of influence to exist between Satan and humans....with myself having spoken on his behalf--eyes to the south, hands on chest, body in the fire. If Elijah should be the forerunner of Moshiach ben David, then I should hail the coming of Moshiach ben Yosef. After having called down fire from heaven in the sight of Mars, I have vindicated the prophets of Baal. Therefore I conclude by saying to the tribe of Ephraim: "Let us go after other gods....gods you have not known, and let us serve them."
